## The topic this time:

If you worked at a company, this is the kind of boss or staff working under you would want!

### Minae Masata

#### RESPONSE

According to my research, I have found a very interesting article from a Japanese magazine. It is about a woman who has been working in a company for 10 years. She is a good employee and has received many awards. However, she is not happy with her job because she feels that she is not being appreciated enough. She wants to leave the company and find a better one where she can be more satisfied.

#### QUESTION

What do you think about this situation? Do you think that the woman should leave the company? If so, what would you suggest she do?
